

Long Live Rock n Roll

At the start of quarantine everything came to a slow
But we ca still celebrate 70 years of Rock n Roll

When Elvis shook his hips and recorded "That's All Right"
The nation started moving and changing overnight

When the Beatles sang the song "I Want to Hold Your Hand"
It changed the face of music and Beatlemania swept the land

As guitar players go, Jimi Hendrix was the best
He learned to play upside down and was better than all the rest

He inspired artists like Prince, who gave us Purple Rain
When we saw him dance the world would never be the same

Freddie Mercury, David Bowie, Stevie Nicks, bless my soul!
When the world is "Under Pressure" we turn to Rock n Roll
